SOUTHERN PACIFIC WILL BE SUED TO RECOVER LAND

Government Will Attempt to Recover Valuable Oil Land and Investigation Is Now Under Way.

By Associated Press.
WASHINGTON, Nov. 11—Attorney General Wickersham, by direction of the president, has begun an inquiry to determine whether 6,000 acres of valuable land in California was known to contain oil when patented to the Southern Pacific Railroad company. If such is the case a suit to recover will be instituted.

The allegation has been made that thousands of acres of public lands have been patented to individuals and corporations, with the full

knowledge that they contained oil. In directing the attorney general to make inquiry into patents to the Southern Pacific, Mr. Taft said he was making only a beginning of the proposed investigation. The president's instructions to Wickersham are to conduct the investigation with all the facilities at the command of the government and if results warrant such a course to begin proceedings for restoration to the public domain of all lands so patented.

SILVER PEAK CASE
AGAIN IN COURTS

The famous mining suit of F. S. Chadburn, B. A. Gamble, et al., against the Silver Peak Mines company, John L. Blair, et al., is again in court and again litigation has commenced, which may last for a long period. This case has already been in the courts for 18 years, and more than a year ago came to trial in Judge Pike's court. At that time Judge Pike decided the case and issued a writ of assistance to put the plaintiffs in possession of the mine until further determination of the suit. Now the federal court has taken a hand in the affair and more expensive litigation is promised.

Attorneys Platt and Gibbons, representing the defendants, the Silver Peak Mines company, have secured a restraining order from Judge Morrow in the federal court at San Francisco, restraining the enforcement of the writ of assistance until the ownership of the mine can be finally determined in the higher courts. The restraining order was secured by the attorneys for the defendant in a suit brought in the federal court at San Francisco setting forth the statement that the facts were passed upon by Judge Pike about a year ago as were embodied in a decree and judgment rendered by Judge Hawley some time before in the United States court and affirmed by the United States court of appeals.

The Silver Peak mines are located at Blair and are valued at this time at about \$10,000,000. The property is claimed by several different parties and for a long time was tied up as a result of the litigation which is not yet ended.

SAME OLD STORY

The aviators who were to astonish Reno and the divorcees by an exhibition of the bird man, had about as much success as did Mr. Baldwin in this city. Two days were given over for the flying, but up to the last reports the nearest to flying was when the machine landed on top of the race track railing and broke a wing. Flying is all right when they fly.

The following excellent program will be shown at the Butler theatre today: "Hunting the Panther," an educational film showing the different methods of capturing that ferocious animal. The boys have lots of fun tormenting him but when it comes to winning the affections of the boss' sister, why the boys are compelled to hand him the prize.
